FOREWORD

This manual contains information and instructions regarding rules and regulations governing the procurement of material, equipment, and services by the Shelby County Purchasing Department for the County's Departments, Elected Offices, Boards and Agencies.

It is to provide guidance to all personnel who participate in actions and decisions pertaining to procurement and to provide to all other personnel a more complete understating of purchasing rules, regulations and practices. Not only will it serve as a basis of uniformity and efficiency in the procurement of supplies and services, but it will also serve as a foundation for training County personnel both within and outside the Purchasing Department.

The purchasing policies in this manual are based on laws, ordinances, resolutions, or rules and regulations amended or adopted and promulgated by the Administrator of Purchasing pursuant to provisions in the Private Acts of 1974, Chapter 260, The Shelby County Charter adopted September 1, 1986, and the 1992 Code of Shelby County, Tennessee. The authority for each policy in this manual has been indicated for your information.

The Rules and Regulations provided in the manual to set out the steps associated with the various activities involved in the procurement process are for the most part, basically descriptive in practices and forms which already exist and have been determined over the years as being most practicable.

The Purchasing Department is committed to assisting you in procuring the best possible material, equipment, and services at the best possible prices, and to enable your department or office to do the best job possible.

We would like to encourage any suggestions you may have to improve the effectiveness of the purchasing process. We hope this manual will answer most of your questions. However, should you have any questions, please do not hesitate to contact the Purchasing Department at 545-4360.

<p>VI. PERFORMANCE BONDS/LABOR AND MATERIALS BONDS:</p> <p>A performance bond guarantees that the work will be done according to specifications and in the time specified.</p> <p>A labor and materials bond normally protects the Buyer against liens which might be granted to suppliers of labor and materials to the contractor, in the event the contractor does not pay his subcontractors or suppliers. In the case of County contracts, the bond provides protection to furnishers of materials and labor, since they cannot place a lien on public construction.</p> <p>A. Performance bonds are also required on contracts for various professional services (e.g. janitorial services, radio communications equipment maintenance, printing of election materials, etc.) The guidelines in section A above are to be used to determine the amount of the performance bond to be required in service type contracts, unless the Administrator of Purchasing determines a different amount or waives the requirement.</p>		1. <p>I. SCOPE:</p> <p>These procedures apply to all purchases for all departments and offices of the County.</p> <p>III. GENERAL:</p> <p>A. The F.O.B. point quoted by a bidder or vendor and shown on the purchase order is very important because it determines (1) the responsibility and basis for payment of freight charges and (2) the point at which title for the shipment passes from the seller to the buyer.</p> <p>B. The most common shipping terms are “F.O.B. Point of Origin” (or “F.O.B. Shipping Point”) and “F.O.B. Destination”.</p> <p>C. Under the shipping term “F.O.B. Point of Origin” (or “F.O.B. Shipping Point”) the buyer assumes title of the goods the moment the carrier signs the bill of lading. The buyer, therefore, assumes risk of transportation and is entitled to route the shipment; but he also must undertake the responsibility for getting the goods to the destination and for filing claims for loss or damage, regardless of who pays the freight charges. Unless qualified, this shipping term places responsibility for freight charges on the buyer; but, the terms may be worded in such a way as to provide for absorption of freight charges or a portion of them through allowance or prepayment.</p>

<p>D. Under the shipping term “F.O.B. Destination” the seller retains title and control of the goods, and the invoice covering them does not become payable until they are delivered and the contract for carriage has been completed. The seller selects the carrier and is responsible for the risk of transportation, including the filing for loss or damages. Unless the F.O.B. clause states otherwise, the seller assumes transportation and related charges either by payment or allowance. When the goods purchased are to be delivered in the seller’s truck, or in the trucks of a carrier operating under contract to the seller, such arrangements should be F.O.B. destination, even if a charge is made for the delivery service, for obviously the buyer cannot assume title or control of the goods, nor the risk of transportation if the seller has not relinquished them. Ownership of goods, upon delivery, passes to the buyer.</p> <p>E. Both F.O.B. terms, origin and destination, may be qualified by modifiers to indicate payment term variations. There are three common modifiers: collect, prepaid and added, and prepaid and allowed. The modifier determines the payment of transportation charges and has nothing to do with the title of goods or filing of claims.</p> <p>IV. DESIGNATING SHIPPING TERM ON PURCHASE ORDER:</p> <p>A. F.O.B. Destination, Inside/In Place Delivery is the preferred shipping term for the shipment of goods to the County.</p> <p>B. Collect shipments are not acceptable because the using departments cannot pay carriers directly for transportation charges. Any vendor indicating a desire to ship an order collect, regardless of the F.O.B. point, will be instructed by the buyer to prepay the freight charge and add it back to the invoice for the goods purchased.</p> <p>C. The appropriate shipping term, “F.O.B. Shipping Point” or “F.O.B. Destination”, must be shown on all purchase orders. If “F.O.B. <p>I. PURPOSE:</p> <p>To provide procedures for the purchase of materials, supplies, equipment or services off of other government contracts or through cooperative purchasing practices.</p> <p>II. SCOPE:</p> <p>This procedure applies to the purchase of materials, supplies, equipment or services for all Administrative Departments, Elected Offices, Boards and Agencies of the County.</p> <p>III. GENERAL:</p> <p>A. Pursuant to Purchasing Policy P-060, Cooperative/Piggyback Purchasing, the Purchasing Department, at the discretion of the Administrator of Purchasing, may purchase from the current contracts of other government agencies and may contract for cooperative purchasing with any other government agency.</p> <p>B. The piggyback method of purchasing (buying off of another government's contract) becomes available when a larger jurisdiction, such as the State of Tennessee, stipulates in their bid invitations that participating jurisdictions within the state, such as cities and counties, will have the option to purchase items in the bid at the same price and under the same terms and conditions available to the larger jurisdiction.</p> <p>C. The cooperative purchasing method involves joint purchasing of common or similar commodities by two or more jurisdictions. They agree on specifications and contract terms and conditions for the items involved, combine their usage requirements for these items, and issue a single request for competitive sealed bids. Once the bids have been received and evaluated, each entity issues its own purchase order, does its own receiving and inspection, is billed separately, issues its own checks for payment and resolves its own disputes.</p> <p>D. When the expenditure is estimated to be \$100,000.00 or more or involves C.I.P. funds, then Board of Commissioners approval is required even if the purchase or bid award is processed by the "piggyback" or "joint" method of procurement.</p>

I. General Information

A. Implementation

1. Release 3 of the Procurement Card Rules & Regulations (“Rules & Regulations” hereafter) of Shelby County is effective on September 1, 2008 and supersedes Release 2.
2. The Director of Administration & Finance is assigned responsibility for overall administration of these Rules & Regulations. The Director or designee may issue clarifications, authorize changes in use of the cards, approve changes in administrative responsibilities, and approve other matters relative to the use and administration of the card program consistent with the spirit of these Rules & Regulations. Major changes will only occur in the form of revisions being issued to these Rules & Regulations.

B. Purposes and Principles

1. The procurement card program was implemented for the following reasons:
 - reduce the time required to acquire goods and services.
 - minimize operating costs and increase productivity in the procurement and payment processes.
 - provide a convenient method to make legitimate County business purchases that does not require employees to advance their own funds or credit.
 - provide vendors with a safe and reliable method to secure payment for goods and services provided to the county.
 - permit the County to take maximum advantage of its exemption from sales taxes.
2. The purposes of this procurement card rules & regulations are to establish guidance for the appropriate use of the Procurement Card on behalf of Shelby County Government as follows:
 - provide clear and specific rules & regulations for the use and administration of the procurement card program.
 - ensure that all users of cards understand both the proper and authorized uses and the prohibited and unauthorized uses of the card.
 - ensure that all purchases with the cards are consistent with County Purchasing Procedures Rules & Regulations for the acquisition of goods and services.
 - ensure that appropriate internal control procedures are established within each department using a card.
 - ensure appropriate internal controls over review and payment are in place and followed by the Finance and Purchasing Departments and that internal auditing of charges is conducted by the County’s Internal Audit Department.
 - ensure that cards are used only for specific purposes and within dollar and transaction limits.
3. Principles used in development and administration of the procurement card program and these rules & regulations are as follows:
 - ensure that all users of the card understand that it is to be used only for official business purposes of Shelby County Government and that no use for personal or other non-job related purposes is allowed.

- ensure that responsibility for each procurement card and its use is fully assigned to and accepted by the cardholder and the cardholder's manager, and that all higher level management officials accept responsibility for proper use of cards in their organizations through administrative actions, including appropriate and timely follow up on possible misuse or violation of these rules & regulations.
- ensure full accountability for the use of all County resources and services related to the procurement card program.
- ensure a balance between the requirements for accountability, responsibility, and compliance with policy and procedure and the procurement-related purposes of the card program.
- provide policies and procedures that can be understood and followed by procurement card users and can be reasonably administered by supervisors, Purchasing, Finance, and other management and can be audited by both internal and external auditors.
- provide minimum standards, policies, and procedures for the procurement card program and permit individual departments and managers to establish additional requirements beyond those required by this policy and procedure.
- provide adequate controls and provisions that apply uniformly to all cards.

C. Applicability

1. This policy is issued in accordance with the PURCHASING PROCEDURES, RULES & REGULATIONS. This policy and procedure applies to all divisions, departments, offices, and Elected Officials of Shelby County Government. 4. A cardholder who makes an unauthorized purchase may be held personally liable to reimburse Shelby County Government and will receive disciplinary action up to and including termination.
5. The cardholder is responsible for safeguarding the card and the associated account number at all times. Cards must be kept in a secure location at all times. Written card numbers should not be kept where others can easily see them.

B. General Provisions and Conditions on Use

1. The Procurement Card can only be used to conduct business with entities that have already been identified as approved vendors to do business with the County by obtaining a current vendor number and an EOC certification.
2. The Procurement Card is to be used for eligible business purposes authorized herein for Shelby County Government purchases only and must comply with all Purchasing Procedures, Rules & Regulations established for purchases.
3. Each purchase transaction must be authorized in advance by department management. This authorization may be on the Procurement Card Requisition Form (Attachment B), made orally, or by other processes established by the department. The Procurement Card Requisition Form is provided as a recommended document to provide additional documentation and control by department management.
4. Absolutely no cash refunds are permissible. All refunds must be applied as a credit to the Procurement Card.
5. No Elected Official, cardholder or employee may purchase or attempt to purchase an item using a procurement card issued to another employee. Delegation of authority is not permitted for use of the Procurement Card.
6. All items purchased must be immediately available. Purchases for items on back-orders are allowed.
7. An available budget balance must exist in the account to be charged.

C. Limits on Amounts and Number of Transactions

Each Procurement Card will have the same preset limits. The limits are as follows:

1. Single Purchase Limit - not to exceed \$2,000.00 per transaction. This control governs the dollar amount only for each single purchase. Each procurement card holder still bears the responsibility of following the Purchasing Department's open market buying limits as set forth in the Purchasing Procedures, Rules & Regulations Manual.
2. A single visit or call to a vendor for pre-approved purchases using the card may consist of multiple items not in excess of the authorized Single Purchase Limit of \$2,000.00. Payment for purchases may not be split into multiple charge tickets at the same vendor in order to stay within the Single Purchase Limit. No single item exceeding \$2,000.00 may be purchased using the Procurement Card.
3. Maximum of six (6) transactions per day - a cardholder may not make more than six (6) purchase transactions per day.
4. 30-Day Limit - Not to exceed \$5,000.00. This is a total dollar amount for all purchases made within a given billing cycle (30-Day Limit).
5. Since the County, not the individual cardholder, is financially liable for purchases made with the County Procurement Card, electronic controls are a component of the Procurement Cards. When authorization is sought for a purchase by the merchant, the financial institution's Procurement Card issuer authorization system will check each individual cardholder's single purchase amount limit, six transaction daily limit and the cardholder's 30-day purchase amount limit before authorization for that transaction is granted. Failure of the electronic controls will not relieve the cardholder of responsibility for violation of any of the purchase limitations.

6. Purchases may not be charged on multiple cards in order to circumvent any limits under these rules & regulations.

F. Tax Exemption

Shelby County Government is exempt from all state and local sales taxes charged in Tennessee according to state law. The tax-exempt status appears on the Procurement Card.

1. If sales tax is billed incorrectly to the cardholder's account, it is the responsibility of the cardholder to recover the taxes. The first step should be to contact the vendor to determine if a credit can be issued. If not, then dispute the charge as outlined in section IV. C entitled "Transaction Disputes."
2. Nominal amounts of sales taxes may be paid when the acquiring department requests payment rather than incur cost disproportionate to the amount of the tax.
3. If a vendor requires a tax-exempt certificate, it is the responsibility of the cardholder to fax a request for a tax exemption form to the Purchasing Department:
 - Fax request to the Purchasing Department, fax # 545-3999
 - List type of purchase, particular goods or services
 - Provide vendor's complete mailing address, telephone #, and fax #

G. Locally Owned Small Business (LSOB)

Shelby County Government has initiated a program to expand the procurement of goods and services from locally owned small businesses within Shelby County. To continue the effort of the County, it is important that cardholders try to procure, as much as possible, from locally owned small businesses. You may contact the EOC Administration at 545-4336 to obtain a current list of locally owned small businesses with which Shelby County currently conducts business.

H. Misuse of Procurement Card

1. The Procurement Card represents Shelby County's trust in the cardholder as a responsible employee of the County to safeguard and protect County assets. The cardholder assumes the responsibility for the protection and proper use of the Procurement Card. The following are some examples of misuse of the Procurement Card. These examples are not all inclusive.
2. Personal misuse:
 - Purchases for the personal non-job related benefit of the cardholder or others.
 - Assignment or transfer of a card to another person.
 - Use of the Procurement Card by a suspended or terminated employee.
3. Administrative misuse:

- Failure to follow these rules & regulations regarding use, documentation and the payment process.
 - Any supervisory or management personnel instructing an employee to make an unauthorized or illegal purchase.
4. Misuse of the Procurement Card will be handled promptly and uniformly for all cardholders. Failure to comply with the requirements of these rules & regulations may result in any of the following actions:
- Immediate revocation of Procurement Card privileges and surrender of the card,
 - Disciplinary action, up to and including termination
 - Personal liability of the cardholder, or individual authorizing the purchase, to reimburse the County for any losses to the County resulting from the improper or unauthorized use of the Procurement Card.
 - Referral for criminal prosecution in appropriate cases.

IV. Acquisition Documentation, Reconciliation, and Payment

A. Acquisition Documentation

1. Any time a purchase is made a document must be secured and retained as proof of purchase. The documentation and vendor receipts must be legible and clearly identify (a) the date of purchase (b) description of items, quantities, and unit prices of each individual item purchased, (c) total amount charged, and (d) the merchant's name and address. Vendor receipts must have the detailed description of each item purchased or Procurement Card purchases may not be made from that vendor. A charge card receipt alone showing only the total of the charge is not adequate documentation.
2. If the business purpose is not evident, a notation of the purpose should be written on the invoice, receipt, or other purchase documentation.
3. When a purchase is made over the counter the cardholder must obtain a customer copy of the charge slip. The cardholder must make sure that all items purchased are itemized on the sales slip or secure an additional invoice or other documentation.
4. When making purchases by telephone or on the Internet the cardholder must document the transaction, attach any shipping documents associated with the order, and verify that the card will only be charged for currently available merchandise.
5. For mail, Internet, phone or fax purchases when a receipt is not available, the cardholder should use a copy of the completed application, flyer, or order form as the receipt. The receipt should clearly indicate the total dollar amount, description of the product or service ordered, name of payee, and date the transaction was made using the Procurement Card.
6. Whenever the cardholder does not have documentation of the transaction to send with the statement, the cardholder must attach an explanation of why there is no supporting documentation. This explanation must include a description of the item(s) purchased, date(s) of purchase, merchant(s) name, and reason(s) for no supporting documentation. The Department Administrator must also approve the explanation.

B. Payment and Invoice Reconciliation Procedures

1. Individual cardholders will be responsible for monthly reconciliation.
2. At the end of each billing cycle that runs from the 26th through the 25th of the following month, the Procurement Card issuer will provide one copy of the billing statement to the cardholder and one copy to the Finance Department. The cardholder's copy, a Statement of Account, will have a listing of all the items processed during the previous 30 days.
3. The cardholder must review the statement and note any error(s) on the statement. The cardholder must attach copies of the receipt(s) to the statement; it is recommended that smaller receipts and invoices be taped to an 8½ x 11 sheet of paper. The cardholder must also sign the Procurement Card Payment Request Form (Attachment C) certifying the items purchased, assign account codes to each item, and forward to the Department Administrator (or above) for his/her approval within five (5) work days after receipt by the cardholder. Noncompliance may mean denial of future use of the card.
4. The Department Administrator (or above) must review the statement, verify the statement and approve the purchases as received and used for necessary county business. The Department Administrator must sign the Form and forward it to the Finance Department by the 10th day of the month following the statement date. If the Department Administrator is unavailable, it is the cardholder's responsibility to seek the approval of someone above the administrator. Delegation of approvals is not permitted. It is the Administrator's responsibility to note any instances of noncompliance with these Rules & Regulations and to report corrective actions taken.
5. By the 10th of each month each cardholder must review all transactions, verify the account coding, and approve or sign off on the transactions. The coding in this system is uploaded into the County's general ledger, so it is critical that the coding be correct and that the monthly approval be completed by the 10th of each month.
6. Should travel or extended leave be scheduled by the cardholder at the time payment processing is due, it will be the responsibility of the Department Administrator to complete the appropriate forms so that payment may be completed within the appropriate time frame and forward them to Finance. A brief explanation should be included stating why the cardholder was not available.
7. The Finance Department will pay purchases made by cardholders on or before the due date to avoid late payment and/or interest charges. If the required documentation and approvals have not reached the Finance Department, the amount of charges on the card will be paid and charged to an account of the cardholder's department. The Finance Department will usually pay the exact amount of charges billed but at its discretion may decide to withhold payment for pending credits or disputed charges.

C. Transaction Disputes

1. If items purchased with the Procurement Card are found defective or the repair or services faulty, the cardholder must return the item(s) to the merchant for replacement or to receive a credit on the purchase. If the merchant refuses to replace or correct the faulty item(s), then the purchase of the item(s) will be considered to be in dispute.
2. A disputed item must be noted on the cardholder's Statement of Account. In addition, a correspondence letter must be completed by the cardholder with

the appropriate documentation attached, if necessary. This letter will be forwarded through the Department Administrator to the Purchasing Department for adjustment. The Purchasing Department will notify the card issuer. The Purchasing Department will notify the cardholder and approving official of the action taken by the card issuer on disputed item(s).

3. It is essential that the time frames and documentation requirements established by the Procurement Card issuer be followed to protect the cardholder's rights in dispute. Dispute policies and procedures issued by the Procurement Card issuer will be provided at the time Procurement Cards are issued to cardholders.

V. Card Program Responsibilities

A. Finance Department Responsibilities

The Finance Department is primarily responsible for determining compliance with these Rules & Regulations requirements on documentation, approval for payment of charges, and actual payment of charges. The Administrator of Finance or designee will perform the following:

1. Review each statement and payment request:
 - Match the total amount for each statement received to the master statement.
 - Verify that a "Procurement Card Payment Request" is attached to each statement and is signed by the cardholder and Administrator as provided by policy and further verify that the total amount agrees to the statement.
 - Verify that for each expenditure on the statement there is an invoice, receipt, or other documentation attached that satisfies these Rules & Regulations requirements on documentation.
 - For each charge, verify that the business purpose is reasonably apparent or is documented and appears appropriate.
 - Review for any apparent violations of the procurement card Rules & Regulations.

If there are no problems noted, the Finance Department assigned employee will sign the bottom of the Procurement Card Payment Request noting approval for payment.

2. If problems are noted, notify the cardholder's Department Administrator in writing with a copy to the Division Director or Elected Official explaining the problems noted. Attach a copy of the notification to the statement and reference the notification on the "Procurement Card Payment Request".
3. The Administrator notified must respond or approve a response to any notification concerning problems within 10 business days from the notification date. If a response is not received within the 10 days, Finance may send a copy of the notification with a statement "Response not Received" to the Purchasing Administrator as documentation for cancellation of the card. Finance will review all responses and if the response satisfies the concern, the Finance Department Administrator or designee will indicate acceptance of the response. If the response does not satisfy the concern, Finance will send the notification and response to the Director of Administration & Finance or the Chief Administrative Officer for resolution.
4. If any statements and departmental payment request are not received by the

15th calendar day of the month following the date of the statement, Finance may notify the Purchasing Administrator and the card will be cancelled.

B. Purchasing Department Responsibilities

The Purchasing Department is primarily responsible for the overall Procurement Card program, managing the relationship with the issuer of the cards, dealing with the issuer of the cards, issuing cards to cardholders, and determining that card usage complies with other County purchasing requirements and Rules & Regulations.

1. The Purchasing Department will maintain a computer log of all cards issued and reference those later cancelled. The log will include the employee name, his/her job title, his/her department, account number, date issued and date cancelled, if applicable. Purchasing will also maintain a paper file containing the Agreement to Accept the Shelby County Procurement Card (Attachment A) signed by Purchasing and the cardholder for each card issued and returned (cancelled). The Agreement includes acknowledgement of the conditions of these rules & regulations including personal liability for any personal purchases.
2. *Every ninety (90) days Purchasing may, at its sole discretion, terminate all cards not used in the previous ninety (90) days.* Purchasing will notify the cardholder and his/her department administrator of the cancellation and request return of the card. Returned cards should be cut in half and returned to Purchasing no later than 4:15 p.m. the next business day.
3. The Administrator of Purchasing or designee will examine the County's monthly card statements in order to determine whether any cardholder appears to have violated any purchasing prohibition (example: split purchases, monetary limitations, etc.) which are specifically prohibited under these policies and procedures.
4. If the Purchasing official does not recognize any problems, he/she must document the review in writing. If problems are noted, the Department Administrator will be notified in writing with a copy to the Division Director or Elected Official explaining the transaction in question.
5. The Administrator, Division Director or Elected Official must respond or approve a response to any notification concerning problems within 10 business days from the notification date. If a response is not received within the 10 days, the Purchasing Administrator or Deputy may cancel the card. Purchasing will review all responses and if the response satisfies the concern, Purchasing will document and sign approving the explanation. If the response does not satisfy the concern, Purchasing will send the notification and response to the Director of Administration & Finance or the Chief Administrative Officer for resolution.

C. Internal Audit Responsibilities

The Internal Audit Department will perform an annual audit of procurement card activity. The extent of the audit will be established by the Internal Audit Department based on their professional judgment. Transactions will be reviewed to ensure:

1. Adequate detailed documentation is on file, including (a) original receipts, (b) shipping documents (if available), (c) vendor's name, (d) unit cost of each item purchased, (e) date of purchase/sale, (f) total amount of purchase transaction, (g) itemized description of each item, and (h) business purpose, if not evident,
2. The purchases were relevant to the needs of that account,
3. The purchases did not include unauthorized items,
4. Purchases were within spending limits, and
5. Purchases were not in direct violation of goods or services available through contract or preferred suppliers

Agreement to Accept the Shelby County
Government Procurement Card

Your participation in the Shelby County Government Procurement Card Program is a convenience that carries responsibilities along with it. Although the card is issued in your name, it is the property of Shelby County Government and should be used with good judgment.

1. The Shelby County Procurement Card is provided based on the need to purchase business-related goods and services. A card may be revoked at any time based on change of assignment or location.
2. The Procurement Card is for business-related purchases only; ABSOLUTELY no personal charges are to be made on the card.
3. The cardholder is the only person entitled to use the card and is financially responsible personally for all unauthorized charges made against the card.
4. All charges are billed to and paid by Shelby County Government. Any personal charges or improper use on the card will be considered misappropriation of County funds since the cardholder cannot pay the bank directly. This may result in disciplinary action, including but not limited to termination.
5. A lost or stolen card should be reported immediately by telephone to the bank that issued the card using the telephone number provided when the card is issued.
6. The cardholder must surrender his or her card upon request or termination of employment (i.e. retirement or voluntary/involuntary termination).

33.0 LOCALLY OWNED SMALL BUSINESS PURCHASING PROGRAM RULES AND REGULATIONS

33.1 (i) The Administrator of Purchasing in conjunction with the Administrator of EOC shall identify certain goods and services required by the County to be set aside for special purchasing procedures for locally owned small businesses.

(ii) Only certified locally owned small businesses will be allowed to submit competitive bids on the goods or services identified under paragraph (i) above.

(iii) The Administrator of Purchasing shall, in conjunction with the Administrator of EOC, annually review the Shelby County Capital Improvement Program to determine those projects with a construction cost of \$250,000 or more. Contracts amounting to at least ten (10%) of the construction costs of such project shall be awarded to locally owned small businesses as defined herein, except as set forth in sub-paragraph (vi) of this section, either as part of the conditions of the solicitation for general contractors bidding on these projects, or as separate bids issued by the County for subcontracts that may be assigned to general contractors.

(iv) After adhering to all other bidding and purchasing requirements of the County, not inconsistent with this part, if no bids are received from locally owned small businesses, then the County may solicit bids for the goods or services from all other sources.

(v) On all purchases and/or contracts entered into by the County, the Purchasing Administrator or his or her designee shall have the right to negotiate with any supplier of goods or services to the County for the inclusion of locally owned small business subcontractors and/or suppliers in the contract award.

(vi) Failure by a supplier or contractor to include locally owned small business sub-contractors or suppliers in its bid or contract may be grounds for rejection of said bid or contract unless the supplier or contractor can show documented evidence of good cause why none were included.

(vii) Any locally owned small business awarded a contract or purchase order under this section shall not sublet, subcontract or assign any work or services awarded to it without the prior written consent of the Mayor or the Purchasing Administrator.

(viii) As to those purchases below the requirement for a formal bid solicitation (currently, under \$15,000) and not included in the locally owned small business set aside, the Administrator of Purchasing shall determine if any locally owned small business offers that product or service. If

so, at least one such eligible locally owned small business should be included in the vendors contacted for an opportunity to bid, and the Administrator of Purchasing may, at his discretion, designate in a purchase order the purchase of such goods and services from the identified locally owned small business.

(ix) In those situations where a locally owned small business as defined herein, engages in open competitive bidding for County contracts, the Administrator of Purchasing shall provide for a preference for the locally owned small business where responsibility and quality are equal. Said preferences shall not exceed five percent (5%) of the lowest possible bidder meeting specifications. The preference shall be applied on a sliding scale in the following manner:

a. A preference of up to five percent (5%) shall be allowed for contracts up to \$500,000.00;

b. A preference of up to three and five-tenths percent (3.5%) shall be allowed for contracts up to \$750,000.00;

c. A preference of two and one-half percent (2.5%) shall be allowed for contracts up to \$1,000,000.00;

d. A preference of two percent (2%) shall be allowed for contracts that exceed \$1,000,000.00.

(x) For construction contracts over \$2,000,000.00, the Administrator of Purchasing shall provide for a preference of two percent (2%) to general contractors meeting the requirements of Section 1, Subparagraph B, if fifty percent (50%) or more of the total work comprising the bid has been or will be awarded to certified locally owned small businesses. The fifty percent subcontracting threshold must be met prior to contract execution.

(xi) The Administrator of Purchasing may divide a single bid package for any purchase of goods and services into two or more smaller bid packages in any case that the Administrator of Purchasing reasonably believes that the smaller bid packages will result in a greater number of bids by locally owned small businesses.

(xii) The Administrator of Purchasing, upon approval of the County Mayor, may establish special insurance and bonding requirements for certified locally owned small businesses so long as they are not in conflict with the laws of the State of Tennessee.

(xiii) The Administrator of Purchasing, with the approval of the County Mayor, shall adopt and promulgate, and may from time to time, amend rules and regulations not inconsistent with the

provisions of this ordinance, governing the purchase of goods and services from locally owned small business concerns to effectuate and implement the Locally Owned Small Business Purchasing Program within the intent of this ordinance.

(xiv) The Administrator of EOC shall, in conjunction with the Administrator of Purchasing, provide a written quarterly report to the Mayor and Board of Commissioners which shall include a summary of the purchases selected for this program, a listing of the contracts awarded to locally owned small businesses for the period, and the dollar amounts of each such contract, and the percentage which such contracts bear to the total amount of purchases for the period.

RULES AND REGULATIONS: Governing precepts and procedures, made by an administrative body or agency under legislative authority, that sometimes have the effect and force of law.

SPECIFICATIONS: Any description of the physical, functional or performance characteristics or of the nature of a supply or service. A concise statement of a set of requirements to be satisfied by a product, material or process; indicating whenever appropriate the procedures to determine whether the requirements are satisfied. As far as practicable, it is desirable that the requirement be expressed numerically in terms of appropriate units together with their limits. A specification may be standard, a part of a standard or independent of a standard.

STANDARD: A characteristic or a set of characteristics for an item, generally accepted by the manufacturers and users of the item as a required characteristic for all such items.

STANDARD CONTRACT: Standardized form of contract terms and conditions.

STANDARDIZATION: Process of defining and applying the conditions necessary to ensure that a given range of requirements can normally be met, with a minimum of variety, in a reproducible and economic manner, based on the best current techniques.

STATE CONTRACT: A contract for supplies competitively bid by the State Division of Purchasing which is made available to the County and other political subdivisions.

STOCK (INVENTORY) CONTROL: The process of maintaining inventory data on the quantity, location and condition of supplies and equipment due in, on hand and due out. Done to determine quantities available for issue and to facilitate distribution and management of material.

STOCKLESS PURCHASING: A system whereby the buying organization has no responsibility for inventory of the goods being purchased. The inventory is owned by the supplier and may be located at the seller's or the buyer's facility. In the case of the latter, it may be referred to as consignment purchasing.

SYSTEM CONTRACT: A method of procurement designed to improve reordering of materials used repeatedly.

TERM CONTRACTING: A purchasing technique in which a source or sources of supply are established for a specified period of time, usually characterized by an estimated or definite minimum quantity, with the possibility of additional requirements beyond the minimum, all at a predetermined unit price. Bidding then proceeds as in conventional formal sealed bid procedures.

COMMODITY CODE OR CLASS-ITEM CODE	Supercedes:
	11-01-02

A commodity code, also called a class-item code, is used by the Purchasing Department to group supplies or services by material, physical characteristics, function or some other criteria. It used to categorize similar supplies or services into groups so that when Purchasing is searching for a source, it can readily identify potential vendors.

A class-item code should not be confused with part numbers, which have only one purpose—to identify a particular part.

The County uses the National Institute of Governmental Purchasing’s eleven-digit class-item code. Generally, only the first five (5) digits (class-item) are used, i.e. 615-45. Warehouse stock numbers are represented by a seven (7) digit number consisting of the five (5) digit commodity number plus two (2) additional digits to designate the specific item.

The following is an example of how the class-item code is arranged:

615 - 45 -

The following is an example of how the class-item code is used:
